Air Force 902
  Accidents 1079
  Air bases:
    High priority items on 968
    Overseas bases:
      Dispersal of 1192
      Loss, effect of 938
      Occupancy agreements at 46
      Saudi Arabia 939
      Vulnerability of 931
    Reprograming, use of 967
    Vulnerability of 931, 932, 940, 989, 1181
  Aircraft:
    Atomic propulsion for 1024, 1084
    Bombers:
      B–36, phasing out of 1096
      B–52:
        Modifications in 961, 1093
        Production of 1090, 1241
        Value of 41, 1319
      B–58 ..... 42, 1145, 1146, 1319
      Comparison of various 1145
      Destructive power of 991
      Tankers, ratio to 1175, 1185
    Equipment for air defense 1156
    Identification of 1088
    Inventory of 157, 979, 1117, 1195
    Jet tankers 956, 1045, 1094, 1145, 1174
    KC–135 transport 956, 1045, 1094, 1145, 1174
    Manned aircraft, future of 292, 294, 1320
    New transport 1112
    Number in budget 1042
    Operational units, number not in 1124
    Procurement and production. (*See* this subject under Air Force, this index.)
  Air Force Academy, cost of 1082
  Airlift capabilities 127, 1150
  Appropriations, 1957, and estimates, 1958 1014
  Budget, 1958:
    Additional funds, 1957, use of 955
    Adequacy of 321, 921, 923
    Application of increase or decrease in 942, 952, 1066
    Departmental budget 921
    Economic effect of 993
    Field level budget 941
    Increase in 981
    Reductions, possibility of 942, 952, 1066
  Chief of Staff, statement of 911
  Civilian personnel:
    Contract personnel 953
    Increase in 952
    Number of 1176
  Civil Reserve air fleet 997
  Communications and electronics 907

Air Force—Continued — Page

- Cost of flying, average per hour — 1163
- Dependent medical care — 1083
- Distant early warning line — 157, 1028, 1038, 1154
- Efficiency and economy, programs to improve — 216
- Expenditures, 1956–58 — 983
- Fire losses — 1075
- Firepower, increase in — 950
- Flying hours, reduction in — 1103
- Future wars, scope of — 1098
- General program data, summary of — 1162
- German military purchases, effect of — 1000
- Housing:
  - Airmen's barracks — 976
  - Overseas housing — 976
  - Rental payments in France, rate of exchange on — 994
  - Units, number of — 959
  - Wherry housing:
    - Funding of — 971, 998
    - Maintenance of — 975
- Installations, increase in major — 1194
- Intelligence on Soviet strength, accuracy of — 130, 911, 914, 925, 962, 1030, 1033, 1035, 1062, 1081, 1108, 1121
- Maintenance funds, transfer of — 956
- Military construction — 907, 919
- Military personnel:
  - Combat ratio — 978
  - Leaving service, reason for — 1118
  - Number of — 156
  - Reduction in — 952, 978
  - Regular officer augmentation — 1189
  - Reenlistments — 1006, 1009, 1118, 1120
  - Regular officer personnel — 1007
  - Training — 1113
  - Warrant officer personnel, increase in — 1164, 1188
- Missiles:
  - Accuracy of — 945, 985
  - Defenses — 1029, 1038
  - Guided missiles, procurement and production of. (*See* Procurement and Production under Air Force, this index.)
  - Guided missile program — 1126, 1208
  - IRBM, Responsibility for — 284, 915
  - Jupiter Missile, Development of — 285
  - Launching bases — 1090
  - Snark, value of — 31
- Mission of — 1140, 1157
- Mobilization Reserves:
  - Policies — 1167, 1177, 1188
  - Supply system inventories — 30
- National Guard. (*See* this title, this index.)
- Naval targets, capability to attack — 932, 935, 937
- Nonappropriated funds, use of — 948
- Obligations — 923, 983, 1016
- Planning and programing — 1138
  - Activation and equipping — 1161
  - Air Defense Forces — 1152
  - Major forces for 1960, summary of — 1158
  - Major installations, increase in — 1194
  - Missions — 1140, 1157
  - Mobilization reserve materiel — 1167, 1177, 1188
  - National Guard — 1167, 1190
  - Regular officer augmentation — 1189
  - Reserves — 1166, 1190
  - Strategic air forces — 1143
  - Support forces — 1165
  - Tactical Air Forces — 1148
  - Tanker-bomber ratio — 1175, 1185
  - Warrant officer program — 1188

Air Force—Continued
Procurement and production: Page
Aircraft and guided missiles 905, 1208
Advertisements, price effect of contractors' 1251
Aircraft 1210
B–52 command support and advanced attrition 1244
Phasing out of 1235
Podded versus buried jet engines 1268
Spare parts 1211, 1232
Contracts, cost of cancellation of 1171, 1302
Guided missiles 1212, 1228
Growth of program 1235
Helicopters for the President 1262
Industrial facilities and equipment 1213
Dispersal of production facilities 1269
Production equipment in use by contractor, problem of 1238
Production equipment, utilization of 1232
Production readiness policy 1187, 1239
Inflight refueling 1234
Northcross, Inge Becker, transportation expenses of 1261
Rejection of a product by a commercial company 1218
Small business, contracts with 1226
Time lag in acceptance and procuring new items 1224
V-loans 1253
Program of 7, 902
Radar, effectiveness of 984, 1155, 1181
Research and development 906, 915, 1100, 1270
Additional funds, 1957, use of 1297, 1306, 1311, 1323
B–52 and B–58, relative merits of 42, 1319
Chemical bomber fuel 357, 1294, 1326
Contract cancellation, cost factor in 1171, 1302
Development and production, reduction of time lag between 1312
Emergency funds, use of 1308
Field operations and base support area 1282
Funding of 1100
Heat of aircraft skin at supersonic speeds 1295
Management and organization 1277
Manned bombers, phasing out of 1320
Missile programs, duplication in 1327
Nuclear propulsion, future of 1313, 1326
Obligations and expenditures 1306, 1325
Objectives 1274
Operational systems area 1279
Optimum level for 1299
Planning procedures 1275
Program 1272, 1278
Reimbursements 1317
Results from exploratory projects 1286
Scientific personnel, survey of number of 1305
Technical development and research area 1281
Thor and Jupiter missiles, phasing of findings on 1316, 1318
Total funds available 1324
Turbo jet propulsion 1285
Universities, contracts with 1292
Vertical lift planes, funds for 1317
Reserves. (*See* this title, this index.)
Roles and missions of the services, determination of 8, 986
Sage:
Jamming of 1196
Radar, use of 1201, 1204
Short runways, development of planes for 1073
Soviet Union. (*See* this title, this index.)
Strategic Air Force:
Readiness of 947
Retaliatory force 1141, 1143
Strength of 7, 156, 904, 917, 920, 925
Support forces 1166

Materials research and development 364
Medical research 365
Middle East crisis, reprograming due to 330, 341, 348, 359, 521
Obligations and expenditures 371, 377
Other Government research 347, 373, 374, 375
Priority of work, 1958 361, 378
Private industry, research by 345, 374
Research and Engineering Secretaries, friction between 398
Results of expenditures for 379
Rocket launchers 340
Scientific personnel, percentage of 388, 394
Strategic materials, substitutes for 366
Transfer authority, use of 354, 369, 386, 389
Reserves:
Air Force:
Program for 1166, 1190
Requirement for 908, 918
Strength of 978, 1011
Training of 1011
Army:
Cost of 484
Early deployment, training for 301, 431, 465
Equipment for 574
Strength of 6, 407, 430, 454, 498
Strategic reserves 429
Training facilities, availability of 493
Units, number of 498
Future war, use in 38
Navy:
Marine Corps:
Dependence upon 640
Number of 677
Number of 599, 677
Program for 594, 599, 631

Reserves—Continued — Page
Readiness of, actions to improve — 131, 301
Role, new concept of — 286
Six months' active training program — 133, 136, 139, 305, 308, 437, 444, 499
Universal military training — 142, 287, 289
Roles and missions — 8, 13

S

SEATO, discussion of — 304
Soviet Union:
Air force:
Aircraft production — 1019, 1022, 1047, 1048
Airpower influence upon — 1142, 1169, 1182
Ballistic missile progress — 1020
Defenses — 951, 1152
Jet engines — 1022, 1053
Missile development — 1053
Personnel — 1111
Research and development — 1050
Scientific and engineering personnel — 1050
Strength:
Estimates, accuracy of — 130, 911, 914, 925, 962, 1030, 1033, 1035, 1062, 1081, 1108, 1121
Future strength of — 1035, 1059, 1086
United States airpower, comparison with — 925, 1017
Symington committee report (*see also* this subject under Air Force, this index) — 1035
Army:
Strength of — 402, 421
Atomic power for propulsion, development of — 344
Atomic war, capabilities for — 300
Economic and industrial development of — 19, 624
Missile development — 343, 646, 1020, 1053
Navy:
Buildup of — 665
Capabilities of — 626, 630, 644
Strength of — 620, 633, 644
Submarines, number of — 665, 777
Type of — 653
Relative strength of — 49
Scientific challenge, solution to — 1288
Security of United States, threat to — 18
Technological advances — 342
Spare parts program — 246
Strategic materials, sources of — 316
Strength, 1950 and 1958 — 241

T

Treaty relationships — 315

U

Universal military training — 142, 287, 279

V

Veterinary Corps — 290, 551

W

Working capital funds — 12
